Michael,

It appears he's unavailable from noon until 3:30 on the 12th. Therefore, we could schedule Cork St. for the morning and then go to the Allied site after 3:30 pm when his schedule frees up again. We could use the time in between to discuss the Cork St. monitoring issues.

Mike

Mike,

I could get there by 9:30. My concern is that I am not sure that the morning is enough time to see both sites. When would the mayor have to leave on the 12th?

Michael,

I was tied up all day today so I wasn't available for a call. The timeframe really depends on you and Gavin. We need to have enough time to go to both sites in the morning with Mayor Hopewell and then talk about Cork St. monitoring issues in the afternoon. Would 9:30 am or 10:00 am work for both of you?

Mike,

Are you free for a call this morning?

Do you have a sense as to the exact time range for the morning of the 12th?

That day works fine for me.

Michael & Gavin,

The Mayor's availability is shown below. Will Wednesday AM, June 12th work for both of you for the Cork St. site visit? We could try to schedule both Cork St. and Allied prior to noon. That leaves us the afternoon to discuss Cork St. issues.

June 10 or 11 after 3 pm, and June 12 before noon or after 3:30 work for him right now. I will put holds on them for right now.

Subject: Mayor Hopewell's schedule

Gina,
 At our meeting with EPA last week, Mayor Hopewell requested a site tour of the Cork St. Landfill and the Allied site. We will be meeting with Michael Berkoff, who is the EPA project manager for both of those sites. Can you please check the Mayor's schedule for June 10, 11, or 12? If he does not have large blocks of time available we can work around his schedule for any of those days. He should plan on at least 1 hour at each site. Call if you have questions.
 Thank you,

Mike Wetzel, PE
 Environmental Services Superintendent
